## WORKSHOP FOR YOUNG RESEARCHERS MIGRATIONS, RULE OF LAW AND EUROPEAN VALUES

---

For several years, the management of migration flows has been representing one of the main themes of internal and European policies, which might conflict with the values of the Rule of Law and the respect for human dignity, that found the construction of an “integrated” European legal area.

Management of borders, rescue at sea, protection of both substantive and procedural rights, reception and detention, are just some of the aspects that are going to be approached, in both internal and international/European perspective, stimulating the discussion among young, structured and unstructured, researchers (PhD candidates, PhD graduates, Postdoctoral fellows, Researchers) interested in various fields of law.

For this purpose and through this call, the Legal Observatory on the European Area of Freedom, Security and Justice, jointly with the research groups of PRIN “International Migrations, State, Sovereignty and Human Rights: Open Legal Issues” and the Jean Monnet Module “Democracy and Rule of Law: A New Push for European Values (EU-DRAW)” invites young researchers to present and discuss their scientific works within a Workshop that will take place at the University of Salerno in Spring 2023.
